Nazione	Germania

PRODOTTI O MACCHINARI

We are a global developer and manufacturer of high-quality fiber and metal products for the automotive industry. The exceptional high temperature and corrosion resistance of our products also provides unique value in non-automotive applications.

Our brands bicomat®, biosil®, powerfil®, powertex®, powermat®, inoxil® and powershield. secure our global leadership in a wide array of applications. All of our products are non-combustible combined with exceptional thermal and acoustic insulation.

DBW Advanced Fiber Technologies produces a special mineral wool with the brand name biosil® that offers another important feature in addition to the excellent thermal and acoustic insulation: environmental compatibility and safety for humans and animals. Moreover, the RAL quality label "Erzeugnisse aus Mineralwolle" guarantees the high quality of the product.

DBW Advanced Fiber Technologies produces biosil® with a binder content between 0 and 8 weight percent. A composition especially developed for DBW guarantees the adherence to the legal emission limits during the production process. The manufacturing process corresponds with the requirements of the Federal Intromission Protection Law (Technical Instructions on Air Quality Control – TA Luft).

Company Profile of **DBW Advanced Fiber Technologies**
