PRODOTTI O MACCHINARI

We are the largest Sheet and Safety glass producers in the country with production capacity of 200 tons per day of glass manufacturing and 48,000 Sqft/day of glass tempering.

We are also producing patterned glass using a state of the art rolled glass process.

Offering varying levels of opaqueness, our collection of designs are ideal for interior and exterior construction use where light transmission is desired along with privacy.

Tableware line producing

- Glassware Articles
- Glass Tumblers
- Glass Cups
- Glass Mugs
- Glass Bowls
- Glass Plates
- Glass Dishes

Basic glass has to be further processed to make it a more useful and high performance product to withstand high wind pressures, increase safety, solar screening, ultraviolet filtration, sound absorption, energy efficiency & fire resistance and most of all, provide pleasant interiors and impressive exteriors to perform and to look good. Tempered Glass is made by processes, which create internal stresses, which give the glass strength. It will usually shatter into small fragments instead of sharp pieces when broken, making it less likely to cause severe injury.

At Gunj Glass we offer a one window solution to our architectural customers to translate their dreams into reality.

Size Available:

- Max Flat Tempered Glass: 96" x 204"
- Max Bend Tempered Glass: 96" x 98"
- Max Insulated Glass: 91" x 137"
