PRODOTTI O MACCHINARI

Feeder

- mechanic gob feeder
- electronic gob feeder
- angular shears
- parallel shears
- servo driven shears

press machines

rotary type presses

- hydraulic pressing
- electric pressing
- direct table drive (torque motor)

single gob operation

double gob machines

tandem lines

press blow machines

4 different types

- from 5 - 110 articles / minute
- from 40 - 300 mm diameter
- from 50 - 500 mm height
- rotating blowing
- fix blowing
- fix blowing in block moulds

moulds

- blank mould and plungers for press-blow-machines
- blowmoulds for rotating blowing
- blowmoulds for fix blowing
- blowmoulds made of graphite

mathematic modeling

burn off and fire polishing

adapted to the related press- blow machine:

- from 40 - 300 mm glassdiameter
- to more than 110 articles / minute

firepolisher adapted to the related line:

tracking burner system

decor cutting machines

based on the well known PÖTING concept:

8 and 16 station machines, automatic loading / unloading

laser polishing

acid polishing lines
laser polishing for cut or pressed glasses

printing machines

screen printing of glass articles with up to eight different colours

toughening

toughening lines for best toughening of glass tableware.
Up to five times higher resistance
up to 130°C thermoshock resistance

vision and inspection

fully automatic equipment for inspection and assortment and packing
up to 140 articles / minute
More than 10 years practical experience in operation
