PRODOTTI O MACCHINARI

Richmond containers offer a wide range of packaging - bottles, jars, closures, dispensers and dosing devices.

STORIA

What Richmond is today has its roots in the early 70s. Originally established as Charles Steven & Co and later re-named as Chasco, the company initially provided containers exclusively for the pharmaceutical market. This gave us a wealth of technical knowledge, experience and a grasp of the markets we cater for today. It set us on our way to become Richmond Containers CTP Ltd.

Richmond Containers branched out from Chasco in 2005. Since then, we have grown rapidly to become the dynamic business we are today, respected and looked to by many in the industry as specialists in our field.

Our structured and communicative company entity is able to provide packaging which meets our clients' timescales, budget and design specifications with uncompromising quality from our service-led team.
