

LUMING

大连路明发光科技股份有限公司
DALIAN LUMINGLIGHT CO., LTD.

大连路明光电科技股份有限公司是以光材料及光电产品为主营，集科研、开发、生产、销售为一体的现代高新技术企业。1992年在国际上首创蓄光型自发光材料，拥有国内外60多项专利，产品出口到多个国家和地区，与国外多家跨国公司建立了良好的合作关系，在国内外拥有系统的营销网络。

- ◆ 公 司 总 部：大连市高新园区高第街1号路明科技大厦
- ◆ 公司员工人数：380多人
- ◆ 公司占地面积：30,000平方米
- ◆ 发 展 状 况：国际领先，龙头地位

Dalian Luminglight Co., Ltd. is a high-tech corporation dedicating in research, development, production and marketing of Photoluminescent raw material & relating products. Since its invention by us in the world in 1992, we've been granted more than 60 domestic and abroad patents. Our products have been exported to over 40 countries and regions such as USA, Japan, Europe, Southeast Asia.

- ◆ Address: Dalian High-tech Zone
- ◆ Total Staff: Over 350
- ◆ Covering area: 30,000 Square meters
- ◆ Development situation: worldwide leadership

科研中心

近几年来公司迅速发展，设立了世界最大的新型自发光材料及制品的科研开发中心，每年新立项的科研项目达10余项，先后承担了国家科技部“863”计划、国家计委重大产业扶植工程、国家总参点火炬计划项目等重大科研攻关课题和重大产业化及专利实施项目。拥有国家人事部批准设立的博士后科研工作站。

制造中心

照明公司制造中心装备有世界最先进的生产、检测设备，技术和生产能力均处于世界领先地位，具有年产系列发光材料1000吨，发光模块100万平方米的生产能力。

Luminglight's R&D Center is the biggest domestic researching and developing base of the new-type Photoluminescent materials and products so far. The postdoctoral workstation of scientific research has been approved to be set up here by National Ministry of Personnel. Among the total 82 staff in this center so far, more than 90% staff have the educational degree over bachelor, it owns 15 masters and doctors till now.

It has set up a close cooperating relationship with Changchun Physical Institute Of China Science Academy, Dalian Institute Of Physics and Chemistry, Beijing University, North University of Communication, American Honeywell Corporation and Japanese Chemical Glow Company. More than 15% of Luminglight's annual sale income has been invested into purchasing modern equipment for research and developing new products every year. The center has been equipped with more than 60 modern instruments and equipments which are advanced in world such as: UMS laser granulinity analytical instrument, LS-100 luminescent powder relative luminance instrument, UV-910 spectrophotometer and etc, which provide very good hardware for further research and development.

照明把企业管理作为企业长远发展的战略任务，在充分借鉴国内外企业先进管理经验的基础上，努力使自己积极参与世界性的经济竞争，使其自企业诞生、企业成长、企业发展到企业核心竞争力的形成，不断推动企业短期业绩的提升和企业长期战略的实现。

Luminglight takes the enterprise management as the strategic measures of long-term development. On the basis of absorbing management experiences from the enterprises home and abroad, Luminglight actively participates the world's economic competition, enable itself to level up the enterprise achievement and reach the purpose and aim under the guide of enterprises' distant view, mission, managing strategy and the main cost concept of the enterprise.

★质量方针

做世界自发光产业的领跑者，视质量为生命，以质量求发展，以优质的服务满足用户需求。

★质量目标

成品检验合格率100%，用户反馈处理及时率100%。

主要产品 Main Products

公司生产的自发光材料及其制品原料有稀土元素组成的稀土铝酸盐、硅酸盐的特种自发光产品。它们的杰出特点是：经紫外线吸收各种可见光10—20分钟后，即可在夜间持续发光10小时以上。其发光强度和持续时间是传统20微光材料的30—50倍。

Luming's photoluminescent pigment and products are made from the rare earth elements such as alkaline earth aluminate or silicate. After absorbing various kind of visible light for 10-20 minutes, it could glow in the dark for 12 hours, whose after-glow brightness and lasting time are 30times more than ZnS.

发光产品及发光产业链

发光颜料：5大系列100余种自发光颜料

发光制品：发光膜、发光板、发光塑料母料、发光陶瓷釉料、发光搪瓷釉料、发光纤维、发光油漆、发光油墨、发光涂料、发光陶瓷管、发光瓶等

发光标志：发光消防标志、发光船用标志、发光电力标志、发光地名标志、发光地铁标志、发光商场标志、发光油田石化标志、发光反光标志、发光导向标志等

发光工艺品：发光花、发光园艺画、发光玻璃画、发光琥珀、发光水晶砂、发光陶瓷、发光首饰、发光宝石画、发光玻璃制品、发光艺术品等系列发光工艺品。

Photoluminescent products and series

1st grade: 5 Series, over 100 kinds of Photoluminescent pigments.

2nd grade: Luminescent plastic master batch, ceramic glaze, porcelain enamel glaze, printing paste, PVC film & board, paint, printing ink, coating, paper, pouches, yarn.

3rd grade: Luminescent secure indication mark, switch, key-press plastic ware, toy ceramic ware, enamel sculpture combining luminescent and glisten function, glassware, arts & crafts, artificial flowers.

发光颜料

高级发光颜料是光敏蓄光型自发光材料，通过吸收各种可见光实现自动发光功能。并可长期连续使用，不含任何放射性元素，可作为添加剂，均匀分布在各种建筑材料中，如涂料、油墨、塑料、印花纸、陶瓷、玻璃等，实现介质的自发光功能，可广泛应用于建筑、装饰、交通运输、军事设施、消防应急、化工、电力、日用品、工艺品等领域。

Photoluminescent pigment

This pigment is a new type of long after glow photoluminescent material. Free from any radioactive substance, it can glow in the dark automatically after absorbing various of visible light. The process of absorbing-emitting can be repeated forever. Being one kind of additives, it can be added in many medium, such as coat, paint, ink, plastic, printing paste, ceramics, glass etc. Those luminous products show good effects in emergency illumination, indication and decoration.

发光制品

发光材料的应用领域非常广阔，根据根据不同发光材料的具体应用特性，有针对性地开发了发光膜、发光板、发光塑料母料、发光陶瓷釉料、发光搪瓷釉料、发光纤维、发光油漆、发光油墨、发光涂料、发光印花纸、发光瓶等系列发光制品。客户可根据实际需求，直接选用相应发光制品来制作各种发光产品。

Photoluminescent products

Photoluminescent pigment is widely used in many fields. According to its property, Luming developed photoluminescent film and board, photoluminescent plastic master batch, photoluminescent ceramic glaze, photoluminescent porcelain enamel glaze, photoluminescent floor, photoluminescent paint, photoluminescent ink, photoluminescent coating, photoluminescent paint glass, etc. Customer could produce various products with photoluminescent material by themselves.

"9.11"事件中，由于纽约的世界中心大楼内采用了新研公司的蓄光型自发光材料，使18万人得以迅速撤离，在灾难上引起了极大的轰动。

蓄光自发光型标志系统是国际联合自身特点研发并推向全球的系列蓄光专利产品之一，具有光蓄电源、安装简便、发光安全系数100%等特点，现已发展成为世界各国消防部门优先推荐的消防、安全指示产品。在消防安全、交通指挥、电力、商业、油田石化、军事等领域得到广泛应用。

美国纽约世贸大厦、德国法兰克福机场、法国巴黎地铁、波音美国“空中客车”3000架飞机、劳氏和雅威船运社认可的船只、天安门广场、人民大会堂、上海金茂、东方明珠电视塔、广州地铁、上海地铁、家乐福、沃尔玛、乐购、希尔顿、大通购物中心等地均采用新研公司蓄光标志指示产品。

Storing and emitting the light, marking and indicating system is one of the Photoluminescent patented products, that has been researched and completed by Luming Group and thus presents to the World. The system has got the features such as emitting the light without the also: power supply, easy installation, and the safety coefficient of light-emitting reaching 100%. The system has become the new fire-preventing products that fire-fight departments over the world favorably present and it has been widely used in fire-preventing, safety transportation military and civil air defense.

Now, Luming's Photoluminescent indication marks have been widely used in The world trade center of New York, Frankfurt airport, Dergail airport of Paris, in the Airbus the airplanes of Boeing and McDonnell-over 5000 planes, in the ships sponsored by the UN (Navy's and Register of shipping) and DNV (Det Norske Veritas of Norway).

科技的进步、社会的发展,人们对诸如机场、车站、港口、展览馆、体育场等大型建筑物内部的安全疏散和消防等需求越来越强烈。依托照明科技集团强大的科研开发实力,完善的发光产业集群优势,照明公司相继完成了北京西客站、大连星海会展中心二期等重大项目的疏散指示系统工程,将照明科技集团的自发光疏散、图文导视、LED大屏幕和亮化等系列产品成功引入建筑物的整体规划,不但增强了这些场所的疏散功能,导视功能,而且也更为建筑物增添了科技、人文、美观等独特的气质和内涵。

路明公司产业的发展始终与其构建的经销协作体系密不可分。在产业链的供需链中，路明公司本着与客户共增长、同发展的基本原则，与各方形成了合作伙伴关系，遵循市场规律，维护竞争秩序，公平交易，信守合同，在国内外的大小客户中均建立了良好的信誉。

The industry development of Luminglight is tightly constructed with the system of retail-store and cooperation from beginning to end. In the industrial chain of supply-demand, Luminglight holds on the rules developing together with the customers and has formed a cooperated relation with the various cooperations. A good reputation has been established among the big and small customers from home and abroad by adhering to the market rules; upholding competing order; conducting fair deal and abiding the contract.

路明以崭新的 辉煌的 姿态走向光时代

LUMINGLIGHT is coming to the light century with the new, brilliant posture
