PRODOTTI O MACCHINARI

Solar Control

Reduces solar heat gain and offers high levels of natural light to provide comfortable and pleasant environments in which to live and work.

Thermal Insulation

Improves the energy efficiency of domestic or commercial buildings whilst enabling the extensive use of glass and the benefit of passive solar gain.

Fire Protection

Provides passive protection from the effects of fire for up to 180 minutes allowing maximum use of natural light and enabling all areas of a building to be occupied.

Noise Control

Allows building occupiers to reduce the noise inside a building to acceptable levels without sacrificing daylight.

Safety/Security

Provides impact or impact and penetration resistance to protect people from accidental injury. Defends people and property from deliberate attack and damage from criminal activity.

Self-cleaning

Continuously cleans external glass such as windows and conservatories using the sun and the rain to break down and wash away organic dirt.

Decoration

Offers an extensive choice of decorative options to provide style and privacy with maximum light.

Glass Systems

Provides the complete glazing installation through specialist techniques.

Special Applications

Solutions to specific requirements for glass in buildings.
