PRODOTTI O MACCHINARI

In large investment projects dealing with a single technology partner saves time and money.

Outotec can offer a total minerals processing solution. We have over 50 years experience in Outokumpu's former mines and concentrators and a selection of the most efficient and reliable equipment.

In addition to proven technology, we provide integrated process design, equipment supply, related engineering, project management and start-up, training as well as comprehensive customer service.

Outotec's process solutions are a result of several decades of research and development at Outokumpu's former concentrator plants and research center.

The technology has been developed to produce, with maximum efficiency, mineral concentrates, especially copper, nickel and zinc including precious metals. The main design emphasis has been to integrate equipment, automation and selected third party auxiliary components to form reliable, cost efficient and easy to operate process units.

Company Profile of **Outotec Oyj**

A service of glasssglobal.com, an affiliate of glasssglobal group.
