Indirizzo	Tiantai Baizan Plastic Co.,Ltd. Tiantai Baizan pvb film company Eyuan high-tech industrial zone, Tiantai, Zhejiang
Nazione	Repubblica Popolare Cinese

PRODOTTI O MACCHINARI

Baizan PVB interlayer is a macromolecule material molded by polyvinyl, butyral resin that is plasticized and extruded by plasticity. Our PVB film with excellent light transparency, heat and cold resistance, elasticity, is well-sticking to inorganic glass and the making of laminated safety glass. Usual thickness specification is between 0.2 mm - 2 mm.

Baizan PVB interlayer is mainly used in making laminated safety glass. Laminated glass is a special glass which is inserted with PVB film between two layers of common glass, which under high heating temperature and pressure, binds to create a single construction. Because of PVB laminated glass with the function of safety, heat preservation, noise proof, and ultraviolet resistance, etc, it is widely used in areas such as high-rise building and auto. PVB film with special formula is also used in aeroplane, space flight ware, military instrument, solar battery, solar energy acceptor and so on.
