PRODOTTI O MACCHINARI

Valmet Automotive is acknowledged as a reliable and trustworthy partner for automotive customers. Today our services and competences cater to every need and demand of the modern automotive industry.

Our core competencies include manufacturing, product and manufacturing engineering, total programs and business services. We offer complete and subprojects in vehicles and roof systems from product development to series production, always tailored to the specific customer expectations. We excel in bringing high-quality specialty models to the market quickly and cost-efficiently.

We have a long experience in cooperating with demanding OEM customers and integrating their engineering and production systems. Our production processes can be flexibly adapted to a wide range of different vehicle types and components.
